---

If you want to change your shipping address, go to the bottom of the first check-out page called "Shipping Address".

Click where it says "Add a new shipping address."

Fill out the new shipping information, and click "Save". This will take you back the original page where the default button should be unselected. Your updated shipping address will not be visible, but the changes have been saved.

If you are unsure if you have correctly saved your new shipping address, simply write your new address in the comments section available on the last page of check-out called "Complete Order".

After you have confirmed your order, you should receive a confirmation email from DelSushi. Check to see if your shipping address is correct. The confirmation email is what we see, so if it's on there, your shipping address has been successfully changed.
